

Senior Accountant

You will be responsible for the financial management of several large assets and/or projects located throughout the United States.

REQUIREMENTS: College degree required – BS in Accounting is preferred.

Significant experience in full cycle accounting

Good Excel and writing skills are a must

The scope of responsibility is broad and includes both accounting and operational responsibilities. The accountant is tasked with managing a range of duties, including, but not limited to, invoicing, cash flow, distributing excess cash back to investors, investor reporting, variance analysis, reading and interpreting contracts, budgeting and forecasting and the review of tax returns. The ideal candidate will be sound in technical accounting and also have the ability to problem solve.
